

STAY IN CONTROL WITH DMAT SPORTS CONTROLLERS!

Designed for the chaotic and fast-paced environment of sports broadcasting, the DMAT family of Sports Controllers lets you stay in control of slow-motion instant replays, and highlights playout to create exciting visuals. Coupled with the simultaneous record and playback capabilities of your DDR or video server, DMAT gives you the power to quickly access just-recorded or archived events while continuing to record and respond to on-field action. **DMAT=Don't Miss A Thing!**

Quickly and easily mark an IN and OUT point for instant replay. With minimal key strokes, recall it, play it, then add it to a game highlight list. Seamlessly play out highlights, one after another to tell the story - game action, player profiles, live crowd scenes, graphics, and advertisements. Personalize your control options for smooth precise replays. A T-Bar provides precise slow motion speed control.

Go Pro with Top DMAT Picks!

DMAT-O Sports Controller

"Elvis-like" functionality allows you to quickly and easily mark, save, and recall clips for instant replays. Build and play out highlight lists - assign a play out speed to each list element, edit list element IN and OUT points. Clip from up to four record trains or from pre-recorded trains. Supports 400 clips and 20 playlists of 60 elements each.

Two configurations:

- DMAT-O-22 Odetics Protocol, Two Record x Two Playback
- DMAT-O-42 Odetics Protocol, Four Record x Two Playback

DMAT-EZ Sports Controller

"VTR-like" functionality makes instant replays and highlight list creation and playout simple, fast, and EZ! Quickly and easily mark IN and OUT points, and save in a cue point. Create a highlight list of cue points, then play them out, seamlessly, one after the other. Supports 100 cue points per Record/Playback channel pair and 10 playlists of 20 elements each.

Four configurations:

- DMAT-EZ-O-22 Odetics Protocol, Two Record x Two Playback
- DMAT-EZ-O-44 Odetics Protocol, Four Record x Four Playback
- DMAT-EZ-AMP-22 Grass Valley AMP Control Protocol, Two Record x Two Playback
- DMAT-EZ-AMP-44 Grass Valley AMP Control Protocol, Four Record x Four Playback

For DDR configurations that do not support simultaneous record and playback, please contact DNF Controls about the DMAT-EZX Sports Controller.

Playing Fields:

Stadiums and Arenas, Mobile Production Trucks, Studio Sports Production, News, Talk Shows, Live Production.

FOR **Abekas Mira**: THE **DMAT-AB** SPORTS CONTROLLER

KEY FEATURES:

"Elvis-like" functionality allows you to quickly mark, save and recall clips for instant replays with minimal keystrokes

"Instant Live Cut" switching between record streams

Clip from up to three record streams or from pre-loaded media

Instantly build and playout highlight lists, assigning playout speed to each element

Personalize control settings to operator's preference

Supports 400 clips and 20 playlists of 60 elements each

Fast, easy, precise and reliable control!

A WINNING COMBINATION:

The DMAT / Mira combination provides the fast, easy, precise and reliable control required in the demanding, unpredictable world of live sports. Instant replays, highlight packages and even pre-loaded media are never more than a few keystrokes away!

Unique to the DMAT / Mira pairing is the "Instant Live Cut" feature, allowing instant switching between the three record streams. This amazing feature provides the functionality of a six-channel video server and downstream cuts-only switcher—all within the cost-effective four-channel Mira / DMAT combination!
